

RGB+CCT Remote Control (GL-RC-006Z)

This manual describes RGB+CCT remote control used for our RGB+CCT products. Remote control can control the LED lights up to six different Zones, change the color, dim/brighten the lights, warm/cool white, different programs. In this manual, you will learn.

Technical data:

Size:18x55x130mm
Material:PC
Transmitting Power:6dB
Modulation Method:GFSK
Programs:9 kinds
Power:3V(AAA battery*2pcs)
Standby power:15μA
Working Temp:-20°C~60°C
Max control Range: 20m
RF Frequency:2.4GHz
Warranty:2 Years

Battery Installation

Please take the remote control and carefully press the battery cover and push it away in a downward motion. Install two AAA batteries, exactly match the negative (-) pole of each battery to the largest spring. Don't touch the color ring when you install the batteries. Place the battery cover back and install tightly.

How to link & use

1. Within 3 seconds after power on, click the "on" button of the group to conduct code matching, and the LED light turns green, indicating successful code matching.
2. Long press the "off" button of the remote control to enter the night light mode, and the brightness and color can still be adjusted at this time.
3. Long press the small moon key to enter the 60 seconds delay shutdown state.
4. Long press M key to enter automatic mode.

How to unlink

1. If the LED is still connected to the ZigBee gateway, long press the "on" button on the remote control within 3 seconds after power on or press the button for 5 times continuously, the light will flash for 5 times in the current color;
2. If the LED is not connected in the ZigBee gateway state, long press the "on" button on the remote control within 3 seconds after power on or press the button for 5 times continuously, then the LED light will be fully bright and flashing for 5 times;
